SUMMARY

Highly skilled Full Stack developer bringing 2 years of experience in designing and developing robust web applications. Proficient in front-end and back-end technologies, including React.js, Node.js, MongoDB, and Express.js. Strong understanding of responsive design principles and cross-browser compatibility. Proven ability to meet tight deadlines and deliver high-quality code. A collaborative team player, dedicated to ensuring seamless user experiences and designing scalable solutions..

EXPERIENCE

Sr.Full Stack Developer

Kamliyasoft

📅 06/2024 - Present 📍 Remote

- Developed a resume builder application that allows users to create, customize, and export professional resumes. Utilized Next.js 14 for its powerful server-side rendering capabilities, enhancing performance and SEO. The project includes features such as various template options, real-time preview, and PDF export functionality. Integrated user authentication and state management to ensure a seamless user experience.
- Developed a comprehensive CRM system for managing a school's eLibrary. Built with Laravel, the system offers functionalities for cataloging books, managing student checkouts, and tracking library statistics. The CRM includes features like user roles and permissions, detailed reporting, and an intuitive interface for both administrators and students. The project aims to streamline library operations and enhance the management of educational resources.

Full Stack Developer

Alltake

📅 04/2023 - 04/2024 📍 Pune

- Played a key role in the development of SmartQC, a comprehensive lead generation and filtering platform
- Designed and implemented the client panel, analyst panel, and admin panel functionalities.
- Led the frontend development using React.js and Bootstrap, ensuring an intuitive user interface for all panels
- Implemented backend logic with Node.js and MongoDB, facilitating seamless data management and processing.
- Successfully managed CSV data uploads, lead qualification processes, and file updates for clients through the client panel.
- Provided analytical tools and insights for effective lead management through the analyst panel.
- Oversaw administrative functions and user management through the admin panel.
- Demonstrated versatility in both frontend and backend technologies to deliver a robust and user-friendly solution

Software Developer Intern

Mobicloud Technologies Pvt Ltd

📅 10/2022 - 04/2023 📍 Pune

- Developed a cutting-edge bidding application for contracts using React.js, actively contributing to frontend architecture and ensuring a seamless user experience, utilized redux for efficient global state management, enhancing scalability and project maintainability.
- Demonstrated versatility in the Vehicle Defects Tracking System project, actively engaging in both frontend and backend tasks. Implemented crucial features like login, defect addition, and defect management.
- Supported senior product managers in roadmap planning and execution.
- Participated in agile development processes, contributing to sprint planning and review meetings.
- Played a pivotal role in problem-solving and troubleshooting, contributing to the overall stability and reliability of the developed software systems.

PROJECTS

Dropofe

🌐 <https://dropofe.vercel.app/>

- Dropofe is a modern question-and-answer platform, designed to facilitate knowledge sharing and community interaction, similar to Stack Overflow.
- Built with cutting-edge technologies like Next.js 14, Clerk for seamless user authentication, and MongoDB for robust data storage, Dropofe ensures high performance and scalability.
- The UI is styled with Shadcn components and Tailwind CSS for a sleek, responsive experience. Whether you're seeking expert advice or sharing your knowledge, Dropofe provides a smooth and engaging platform for developers and learners alike.

Blog Website with Admin Dashboard

🌐 <https://mern-blog-main-msem.onrender.com/>

- Developed a Full Stack MERN Blog Project, a robust and responsive web application featuring cuttingedge technologies
- Frontend: Set up with React.js and Tailwind CSS, with dynamic page navigation via React Router Dom.
- Authentication: Secured with JSON Web Tokens and Google OAuth.
- Security: Ensured for both client and backend, with an emphasis on protecting sensitive pages like the admin dashboard.
- Admin Control: Intuitive CRUD operations for posts, comments, and users, managed through a MongoDB database.

EDUCATION

Bachelor of Science in Computer Science

Rani Lakshmibai College

📅 06/2017 - 11/2020 📍 Parola, Jalgaon
